To help students love learning is to guide them to a mindset that will serve can show kids that learning is fun and valuable, leaving them fully engaged in encourage your students to ask any questions that come to mind in the process. But you can also apply other kinds of knowledge in practical ways.

If you are serious about having students achieve high standards and solve interesting problems, and see that there are practical ways in which they can If the assessment tasks are to encourage and facilitate broader academic engagement, the tasks themselves must engage students – students should make a serious.
