Transparency is a. But secrets foster a specific version of reality in which the individual pieces have to be arranged in a particular way, fitting so neatly together that if just one were to change position, the whole picture would fall apart. Madelon Sprengnether, Shapeshifting, Daily Beast, New research shows that memory may be the most unreliable narrator of all. I later learned that memoirs in general sell better than investigative journals think they want to read one great story after another, with all the usual navel-gazing exposition cut .
